

Tonia Bryan

Coordinator, Lesbian Health Guide

Queer Press is making a practical health manual for lesbians in communities across Canada. This guide will give hands-on information about caring for ourselves, the health care system and tips on dealing with this country's welfare and legal systems.

The LESBIAN HEALTH GUIDE will not only address lesbophobia and sexism, but will also identify racism, ageism, ableism and classism as factors which directly affect lesbian health and well being.

Tonia Bryan, a Black, Caribbean born, lesbian of African descent, will speak about her work as coordinator of the manual.

Thursday, April 1, at 18:00
The Lounge
